

SRILAKSHMI C

8970344022 | shettysri13@gmail.com | Bangalore, Karnataka | linkedin.com/in/srilakshmi-c-87922
Web Developer | MCA (VTU)

PROFESSIONAL SUMMARY

Motivated MCA graduate with hands-on experience in full-stack web development. Passionate about developing innovative and user-friendly applications with good problem solving and analytical abilities. Proficient in C, Java, Python, HTML, CSS, JavaScript. Quick learner with problem-solving skills, eager to contribute to a dynamic IT team as a Web Developer

TECHNICAL SKILLS

- Languages: Java (OOP), Python, C
- Web / Backend: HTML5, CSS3, JavaScript
- Databases: MySQL, SQL, NoSQL, DBMS
- Tools & Practices: Git, GitHub, VS Code, Cursor AI, NetBeans
- AI / Data: Machine Learning, TensorFlow, PyTorch, Scikit-learn, OpenAI Gym

INTERNSHIP EXPERIENCE

Software Development Intern — Connectia Solutions Pvt Ltd, Mangalore	<i>Feb 2026 – May 2026</i>
- Contributed to live full-stack development projects, delivering modules on schedule using Agile methodology and professional coding standards. - Gained industry exposure in client-side/server-side workflows, REST API integration, Git version control, debugging, testing, and code quality/code review practices.	

PROJECTS

Smart Parking System — Final Year Main Project (Certified)	<i>Jan 2026</i>
<i>Python, Flask, HTML, CSS, JavaScript, NoSQL</i>	
- Developed a full-stack, web-based smart parking system with a Flask backend to monitor and manage parking space availability in real time. - Implemented real-time slot status tracking, vehicle entry/exit management, and automated parking allocation using CRUD operations and database management on a NoSQL database.	
Alumni Management System	<i>May 2025</i>
<i>Java (Swing, OOP), MySQL, MVC Architecture</i>	
- Built and enhanced a GUI-based application using Object-Oriented Programming principles to manage alumni profiles, events, and communication. - Implemented registration, search, and event scheduling features with CRUD operations against a MySQL database for streamlined data handling.	
Diabetes Mellitus Prediction Using Support Vector Machine Algorithm	<i>Sep 2024</i>
<i>Python, Jupyter Notebook, Machine Learning</i>	
Developed a supervised machine learning model using Support Vector Machine (SVM) to predict diabetes risk, achieving high accuracy on real-world health datasets.	

RESEARCH PAPER

- “Enhancing Biometrics with AI and Blockchain for Digital Banking Cybersecurity: An Overview” — proposed an AI and Blockchain-enhanced biometric framework to strengthen cybersecurity in digital banking.

EDUCATION

Master of Computer Applications (MCA)	<i>2024 – 2026</i>
<i>Moodlakte Institute of Technology (VTU) — 8.04</i>	
Bachelor of Computer Applications (BCA)	<i>2021 – 2024</i>
<i>Dr G Shankar Women's First Grade College, Ajjarkadu, Udupi — 78.92</i>	

CERTIFICATIONS

- NPTEL — Data Analytics with Python
- Agile with DevOps — Gateway Software Solutions
- Fundamentals of AI and ML — Infosys Springboard

SOFT SKILLS

Strong Communication • Presentation Skills • Quick Learner • Adaptable • Self-Motivated • Responsible • Team Collaboration • Problem-Solving
